Call for Papers

Editor-in-chief:

Dear Colleagues,

We would like to invite you to submit manuscripts of your original papers, for possible publication in **Advances in Applied Computational Mechanics (AACM)**, which publishes top-level work from all areas of theoretical and applied mechanics including theoretical, computational, and experimental aspects, as well as theoretical modeling, methods of analysis and instrumentation. All submissions should be made electronically to the Editor-in-chief through: (EIC: submit@rippublication.com). More information on the journal and the publishing process can be obtained at: www.rippublication.com/aacm.htm

The Advances in Applied Computational Mechanics (AACM) is an international research journal, It includes basic discipline-oriented areas such as dynamics, continuum mechanics, solid and fluid mechanics, structures, heat transfer, tribology, geomechanics, and biomechanics, as well as inter-disciplinary subjects such as new numerical and computational techniques, systems control technology, engineering design tools, manufacturing technology, materials and energy technology, and environmental engineering.

Submission: Authors are requested to submit their papers electronically to submit@rippublication.com with mention journal title (**AACM**) in subject line.

Author benefits:

The benefits of publishing in **Advances in Applied Computational Mechanics (AACM)**, includes:

- **Fast publication times:** your paper will appear online as soon as it is ready, in advance of print version (review time of paper is 3-4 weeks)
- Excellent editorial standards
- Access free on-line issue of journal for one year
- A rigorous, fast and constructive peer review process
- All abstracts and full text available free on-line to all main universities/institutions worldwide ensures promotion to the widest possible audience.

We shall be glad to receive your technical contributions at your earliest convenience. Please publicize this journal amongst your colleagues for possible contribution and subscription.

With kind regards,

Editor-in-chief

Advances in Applied Computational Mechanics (AACM)
